PROFESSIONAL SUMMARY

Senior Frontend Engineer with 15+ years of experience building scalable, high-traffic web platforms for e-commerce and consumer-facing products. Proven track record leading complex frontend initiatives, improving conversion metrics, and maintaining robust design systems. Deep expertise in React, TypeScript, accessibility, and performance optimization. Experienced mentor and technical leader, effective in senior IC, lead, and contract roles.

EXPERIENCE

Senior Frontend Engineer (Contract)

Arc'teryx - Vancouver, Canada/Remote - Aug 2024 - Present

- Led development of high-traffic e-commerce experiences with a primary focus on Product Detail Pages (PDP) and catalog-driven landing pages.
- Played a key role in the **PDP redesign initiative**, contributing to a **15% year-over-year increase in add-to-cart rate**.
- Led development of **Campaign Landing Pages**, supporting merchandising and campaign flows across the Arc'teryx digital ecosystem.
- Built and maintained **scalable, accessible React components** used across PDP and PLP experiences.
- Contributed extensively to the **shared design system**, improving consistency and development velocity across teams.
- Served as **CSS subject matter expert**, guiding layout architecture and complex UI implementations.
- Acted as **accessibility champion**, ensuring components meet **WCAG standards**.
- Collaborated closely with **UX and design teams** to translate designs into performant, production-ready components.
- Improved quality and confidence through **Storybook**, **Chromatic**, and automated testing.
- Supported team growth through **pair programming**, **code reviews**, **mentoring**, and **technical interviews**.

Lead Frontend Developer

TELUS Digital - Vancouver, Canada - 2016 - 2024

- Led multiple frontend teams designing and implementing **marketing, checkout, and internal enablement platforms**.
- Taught and instructed multiple cohorts in the **TELUS Digital Junior Developer Program**.
- Mentored junior and intermediate developers on technical growth and career development.
- Planned and executed major **codebase migrations** including **Java → PHP → React**.
- Designed and implemented **scalable, reusable component systems** adopted across TELUS Digital and brands including **Public Mobile, Koodo, and Business Solutions**.
- Integrated and maintained **CI/CD pipelines**, pull-request workflows, and automated testing.
- Authored internal documentation covering **component development, coding standards, and deployment processes** across environments.
- Tech stack included **React, Next.js, TypeScript, Node.js, Styled Components, Contentful, OpenShift, Webpack, CI/CD, A/B testing**, and performance optimization.

Frontend Developer (Contract)

MEC - Vancouver, Canada - 2015 - 2016

- Architecture and development of a new **e-commerce website** using a custom **Pattern Lab-based style guide**.
- Planned and executed the migration from the legacy site to a **mobile-first, responsive platform**.
- Worked closely with designers and stakeholders to modernize frontend architecture.
- Technologies included **HTML, CSS, JavaScript (ES6), jQuery, XML, JSON, EmberJS**.

Web Developer (Contract)

Wallop - Vancouver, Canada - 2014

Web UI Engineer

Wundr - Vancouver, Canada - 2014

Front End Developer

NBR - Londrina, Brazil - 2013

Front End Developer

ICOMP - Londrina, Brazil - 2012-2013

.NET Developer Intern

Cantoni - Londrina, Brazil - 2011 - 2012

.NET Developer Intern

FTI - Londrina, Brazil - 2011

Web Developer

K2 - Londrina, Brazil - 2010 - 2011

TECHNICAL SKILLS

Frontend & Frameworks

React, React Hooks, TypeScript, JavaScript (ES6+), Next.js (SSR / SSG), HTML5, CSS3, SCSS/Sass, Styled Components

Design Systems & UI

Component library development, Storybook, Chromatic, Accessibility (WCAG), Responsive and performance-focused UI development

State, Data & Forms

tRPC, GraphQL, GROQ, Sanity CMS, React Hook Form

Build Tools & Bundlers

Vite, Rollup, Webpack, Babel

Testing & Quality

Jest, React Testing Library, Cypress, ESLint, Biome, Prettier, Husky, SonarQube

Platform & DevOps

AWS SST (Serverless Stack), CI/CD (Bitbucket Pipelines), Git version control, Monorepos, workspaces, semantic versioning and release automation

Additional

RESTful APIs, Auth0 authentication, Internationalization (i18next), Multi-language support, Performance optimization

MENTORSHIP

- Instructor and mentor for **TELUS Digital's Junior Developer Program**
- Delivered technical training, pair programming, and long-term mentorship
- Participated in **technical interviews** and hiring decisions

EDUCATION

Bachelor of Computer Science — UNOPAR, Londrina, Brazil

Bachelor, Media Techniques & Marketing Communications — BCIT, Vancouver, Canada
